RESPONSE TO RESTRICTION REQUIREMENT

This communication is responsive to the Office Action mailed on May 18, 2004, in which all pending claims 1 and 3-63 were subject to restriction. In particular, the position was taken that the application includes claims directed to two distinct inventions: Group I, claims 1 and 3-46 drawn to a method of adjusting static attitude of a head suspension, Group II, claims 47-63 drawn to a method of measuring and adjusting a static attitude of a head suspension.

By this response, the Applicants elect to prosecute method claims 1 and 3-46 in this application. This election is made without traverse. In the Notice of Allowability mailed on October 22, 2003, claims 1 and 3-46 were allowed.
